GLB1620 Grade Level Box Greenbelt Applications

The GLB1620 grade level box is a high-grade blow-molded thermoplastic box for use in greenbelt applications, including broadband, telecommunications, irrigation and utilities. It features a straight sidewall design to maximize cover load bearing capacity and sidewall deflection. The GLB1620 complies with Telcordia GR-902-CORE specifications for greenway traffic environment.

Features

- Straight sidewall design for greater cover load bearing capacity and sidewall deflection
- Universal “L” bolt security system eliminates problem of lost cover bolts
- Optional private label available on cover
- “T” style overlapping cover design prevents soil from entering box when cover is removed

Specifications

Inside Dimension:
14" X 18"
(355.6mm X 457.2mm)

Depth:
18"
(457.2mm)
