

MAH8800 & MAH1100 Series Pedestal Enclosures

NEW!

The new Channell MAH Profile Series Pedestal Enclosures are the industry's most cost-effective enclosure system. Precision engineered, they are manufactured of high performance thermoplastic material for the utmost protection of equipment and maximum service life.

The MAH Profile Series Enclosure is the "lowest first cost" value in the industry. It is supplied with a full complement of standard features, which includes Self-Lock® security covers and factory installed bracketry, enhancing the value of this innovative product. In addition, the unique design of the enclosure provides an attractive profile for residential installations.

Applications

These free-breathing pedestals are designed for use in buried and underground cable plant installations for distribution tap and splicing applications.

Features

- Complete 360° working access
- Non-corrosive, lightweight and rugged
- Universal terminal block mounting plate
- 2-point Self-Lock® security
- Designed to the requirements of Telcordia Spec GR-13-CORE
- RUS listed
- Winter drop access door and drop wire channel standard
