42" Joint Trench
Stake (2 per ctn.)
P/N ST01001

Designed specifically for housing passive equipment, these special versions of the Channell CPH911, CPH920, and CPH1022 pedestals feature direct-bury bases with a high rib design that are less likely to lean or tilt and do not require stakes for installation. A special self-locating cover ensures that the pedestals lock properly without additional alignment. The covers include Channell's Self-Lock[®] security hardware.

FEATURES

- **9" and 10" diameter round profiles provide maximum workspace and bend radius provisions for all passives, cables and connectors**
- **Round pedestal style maintains a consistent look with legacy pedestals in the field**
- **Constructed of durable, high-strength materials for maximum security and long service life**
- **Universal equipment mounting bracket for passives facilitates installation**
- **Optional stake mounting provision for joint trench or other special applications**
