

# HRV PRODUCT INTRODUCTION

## Unlock the Future of Connectivity with the Ultra Flexible HartLand Round Vault (HRV) Series

Step into the future with  
(HRV). Constructed of  
(HDPE) and designed  
bring ultra-fast, reliable  
demanding environments.  
is the ultimate high-  
below grade solution  
Whether dealing with  
urban areas, or hard-  
HRV Series offers  
seamless connectivity

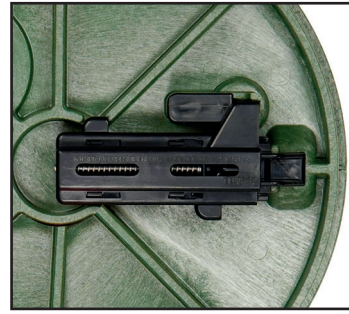

our HartLand Round Vault  
High-Density Polyethylene  
to help you affordably  
internet to customers in  
HartLand Round Vault  
performance affordable  
for your FTTH network.  
rural locations, dense  
to-reach buildings, our  
Fiber flexibility, ensuring  
opportunities.

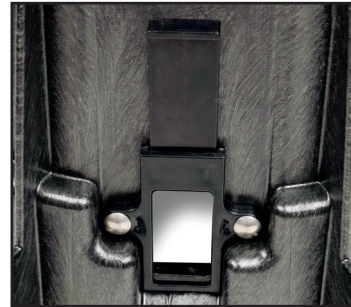

# PRODUCT FEATURES

- The HRV Series ensures long-term OSP performance and upgradeability. If below grade installation is not the correct solution, remove the HRV lid and add our new, secured, HartLand Round Pedestal (HRP) with toolless installation capability. Available in 8", 10", and 14" dimensions. This patented design provides cost effective upgrade capabilities.
- Patented Self-Lock automatic locking mechanism with captive bolt device that opens with a  $\frac{1}{4}$  turn and secures with a simple press/push of the lid. Eliminates the risk of lids floating off, being thrown by lawnmowers (i.e. reduces potential liability).
- Patent Pending Drop Entry Port— Large sliding door opens to provide easy installation of drop cables.
- HRV Series can accommodate 200 feet of industry standard flat drop.
- Customizable logo disc available with minimum purchase.
- Optional Marker / Locator Disc available to always find the vault if an HRP Pedestal is purchased later.

**SELFLOCK™**

Automated Locking Mechanism  
secures with a "Click"

Drop Entry Port— Large sliding  
door opens to provide easy  
installation of drop cables

Customizable Logo Disc

# PRODUCT EXPANSION CAPABILITIES

- The HartLand Round Vault (HRV) is designed for fast upgrade and toolless installation of the HartLand Pedestal (HRP) Series. By simply removing the weatherproof internal grommets in the HRV Vault, the series can be upgraded to the HRP Pedestal Series.

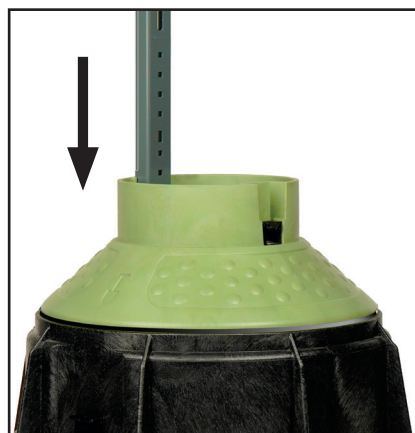

## Step 1

Removable weather-proof internal vault caps allow quick locking connection to HartLand Pedestal (HRP)

## Step 2

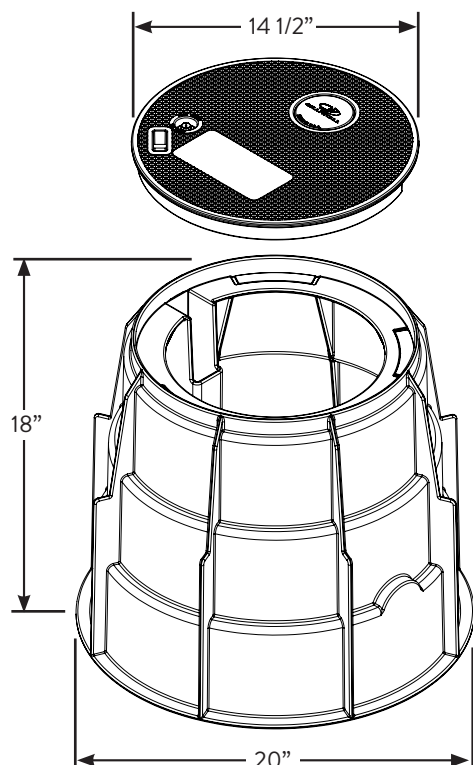

Snap in HRP Pedestal ground skirt to the secured HRV Vault and install splice closure

## Step 3

HartLand Pedestal (HRP) is lockable and can easily be Installed to the HRV Vault
