HARTLAND "C" TURTLE FIBER NETWORK INTERFACE DEVICE
(HRN)

The HartLand "C" Turtle Fiber Network Interface Device is a fiber demarcation terminal which provides NEMA4 protection levels for drops on the side of single-family or multi-dwelling applications. The round shape provides a unique aesthetic appeal which sets it apart from the industry without sacrificing performance and reliability.
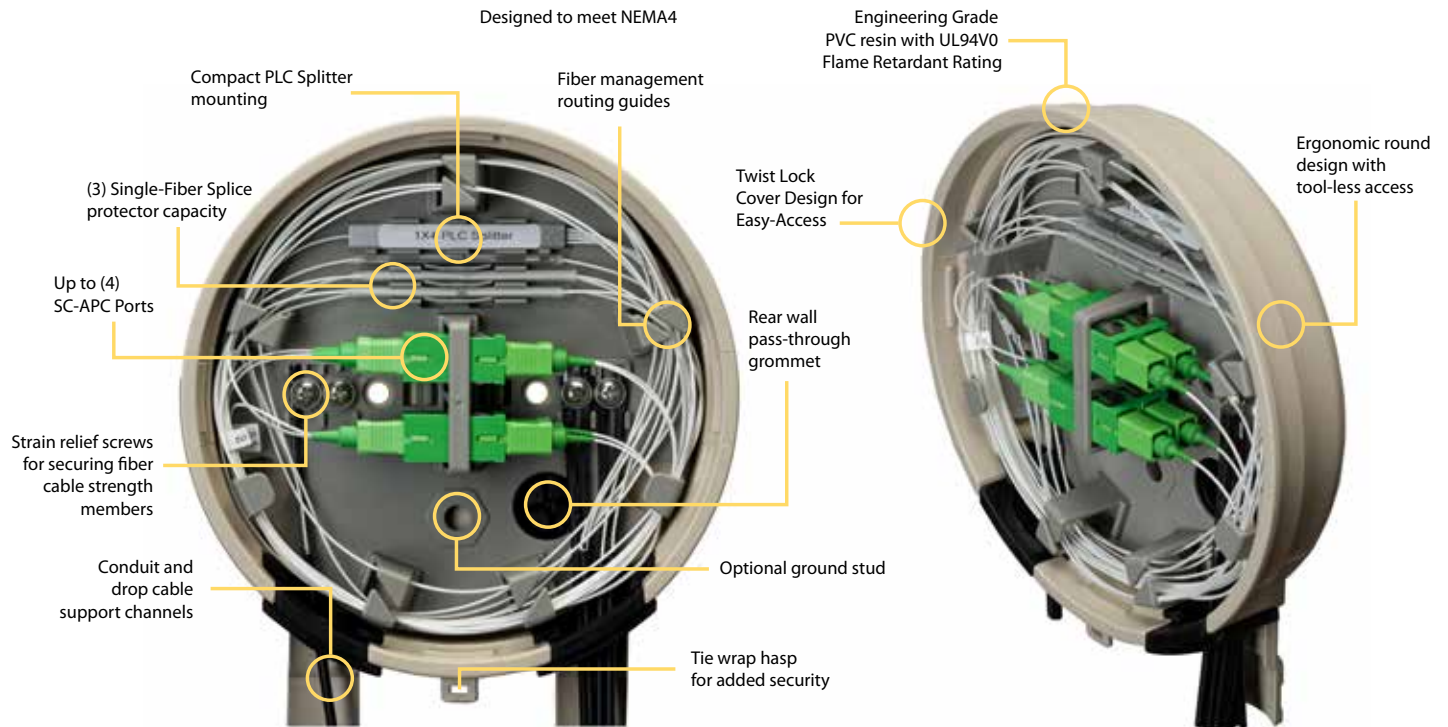

The "C" Turtle includes a tool-less cover and is capable of up to 4 fiber connections in a subcompact footprint. It can be mounted on a wall, pole, or stake inside a pedestal for maximum flexibility. Integrated fiber routing guides provide fiber slack storage and the

available preloaded splitter configurations make field deployments faster and easier.
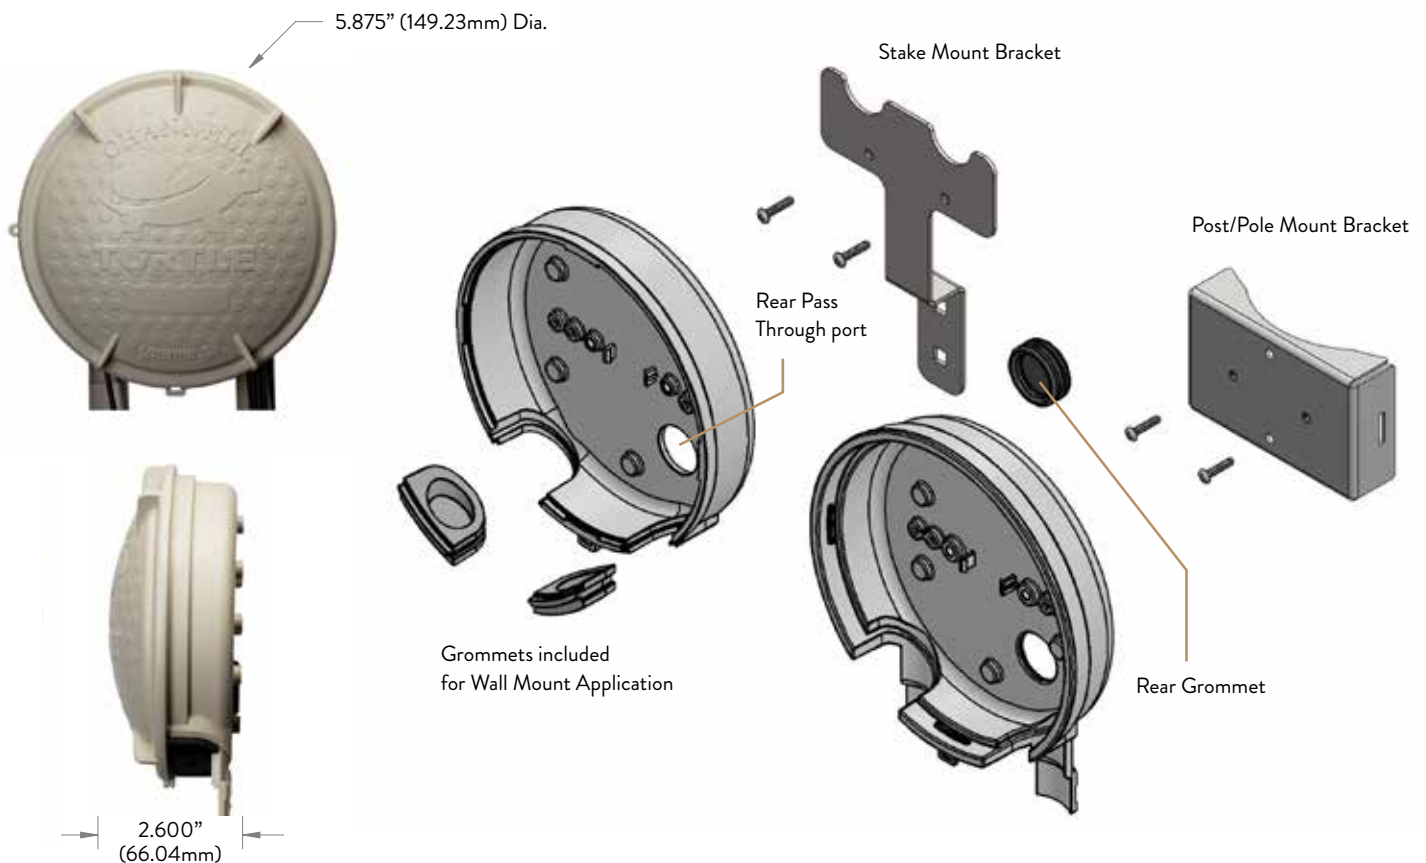

FEATURES

- **Ergonomic round design with tool-less access cover**
- **Optional ground stud and toning wire contact point**
- **Compatible with Channell PLC splitters**
- **Rear-grommet pass through port**
- **Accommodates up to 1" entry conduit**
- **Tool-less twist lock cover design**
- **UL94V0 Thermoplastic Flame Rating**
- **Dimensions: 2.594"D x 5.875"Dia.**

HARTLAND "C" TURTLE PRODUCT OVERVIEW

Designed to meet NEMA4

Engineering Grade PVC resin with UL94V0 Flame Retardant Rating

Compact PLC Splitter mounting

Fiber management routing guides

Ergonomic round design with tool-less access

(3) Single-Fiber Splice protector capacity

Twist Lock Cover Design for Easy-Access

Up to (4) SC-APC Ports

Rear wall pass-through grommet

Strain relief screws for securing fiber cable strength members

Conduit and drop cable support channels

Optional ground stud

Tie wrap hasp for added security

HARTLAND "C" TURTLE FEATURES AND DIMENSIONS

5.875" (149.23mm) Dia.

Stake Mount Bracket

Post/Pole Mount Bracket

Rear Pass Through port

Grommets included for Wall Mount Application

Rear Grommet

2.600" (66.04mm)
